### About This Game

Forget what you have learnt in school. Milk does not come from boxes! And now you have the chance to participate on this ancient farm process (at least virtually).

Cow Milking Simulator is a whimsical arcade game. Your mission: milk the cow as fast as you can! Get the milk, sell some dairies, eat cheese, make money. But you have to be quick: a farmer's life is not as chill as you would think!

Cow Milking is a party game in virtual reality, ideal to play and pass with friends, making it a perfect game to show VR for the first time. Collect new products, new hats for your cow and don't forget to milk as fast as you can to mark your name in (leaderboards) history!

This is an excellent game. I started to play it when it was still getting most of the bugs worked out. It was frustrating at times due to the learning curve and it does tend to punish the player for growing their village too fast. But for the most part it is a great game. On top of the good and rewarding game play, it was nice to know that the developer is very active in the discussion boards for the game. When ever I had run into a bug or mechanic that I did not quite understand or did not seem to work right, he was quick in posting a response to help figure out the issue or help. All in all it is a great game all around. I would recommend that if you like games that offer a good challenge and is a little off the beaten path, then grab this one and give it a good try.. A funny game. It's a fun, visually appealing little Zelda inspired game for the first couple hours. Then you run out of equipment to progress to, and THEN you get to the desert.

The desert is just awful, honestly. You get access to a couple new pieces of equipment, most of which I already had the materials to make as soon as I arrived. Then you're given a bunch of quests that involve running long distances across featureless sand. It was kind of funny how I got the tooltip about choosing your attacks based on enemy resistances, immediately before entering a zone where all the enemies have resistances to every single damage type.

Based on the first area I'd say the game definitely has some potential, but it still needs a lot of work that really should have been taken care of while it was still in early access.. good 8 hours of gaming if your a penny arcade fan. After changing the controlls to use the arrow keys, this game is as close to the old Win3.11 game as you can get it. I've stoped playing so I could type this. Its not as Graphical as some might want it, but is a proper remake with achievements. Well worth the \$2.40 .. Trash . . . Not just a bowling game

Not just a golf game

A combination of both.

Take a trip to an alternate universe where odd creatures are looking down at you as you steer large golf balls on a obstacle ridden miniature golf course.

Really enjoyable and different.

Still very much in development.

I struggled to get the game to even launch, but after that it settled down fairly well.

the game has an easy entry level feel to it, and though there's a lot to take it, i didn't feel overwhelmed.

i've have a number of crashes, but i don't see a reporting system for those crashes (though there's a pop up saying it'd be nice if i sent it to them) I don't usually do early access, but this one feels like there's potential. (please do ship boarding!)

Latest crash (hence this post) - repairing my weapons room while under cruise. the screen blacked and then showed the station i was at last.. An amazing highscore chaser where you have to constantly balance risk and reward in order to keep up your combo multiplier.. imj nair buccaneers uyyou have to play a game of battleships in the sky vs asome COLOMGS \*\* VIKING S AAND & BUCCCNANERS...

t owin game u are in charge of fly to ship or to shoot to cannon in

los of people r gonna love ir baby. ahhh i got motion sick cz of this game.... they didnt fixed the crappy camera angles, the hud is ruined with that orange color that blend with the fire and explosion and the overuse of FX and explosions it feels like michael bay made this ♥♥♥♥ing game

### Update 0.71.x:

New Abilities:. **Review Highlight: CheckpointGaming.Net:**

We'd like to thank Kieren Munn and the rest of the team at [CheckpointGaming.Net](http://checkpointgaming.net) for an fantastic article:

<http://checkpointgaming.net/reviews/2018/05/aura-of-worlds-review-endless-possibilities/>

"A world of endless possibilities...It's a solid platformer that any PC gamer would enjoy playing in their downtime.". **Patch 0.64.3:**

- Support for much higher window resolutions
- Better controller/mouse rebinding support (the game also remembers your configuration on exit)
- Numerous balance changes including nerfing multi-jump.
- Debug window is hidden by default (with an option to turn it back on).
- Mini map automatically closes when expanded for too long.

### . Video Roundup:

Hey adventurers!

Just wanted to give a shout-out to the Youtubers and Streamers who have covered Aura of Worlds over the past month.

It's all been quite positive so far.

They've helped build awareness for the project, as well as providing feedback which has and still is being used to refine the game.

A toast to the following creators. **Update set 0.75.x: Character backgrounds, polish & more...:**

With this new system comes 9 different player trait/passive ability sets which allow for further customization of play-style.

These range from increased defence to gaining double jump & infinite wall vault.

Beware that the perks they offer are not without trade-offs.

One of our favorite is bloodthirsty which will gradually drain your health but allow you to heal from injured enemies (with a number of other augments to your damage).

#### Achievements. **Permanent Progression Overhaul - Update 0.69:**

New items, sound effects, rewards for earlier players and an entirely new set of unlockable goods.
